

2026–27 Approved Dual Credit Course

Dual credit courses may allow 11th and 12th grade students to earn both college and high school credits. If a student seeks to earn dual credit, before registering for the college course, a student must obtain approval from the school counselor and principal through the ECAP funding request process. If a student is not eligible for ECAP funding, prior written consent from the counselor and principal must be obtained for dual credit. Only 11th and 12th grade students are able to take courses for dual credit. Gifted and Talented students in grades 8–10 cannot substitute AACC courses for AACPS courses or be used for high school credit. Please visit www.aacps.org/ecap for more information on dual credit.
